

Safety Committee Minutes – April 13

1. Discussed off leash dog incidents. No new official reports, just a few second hand from Ardenistas. Informed the committee that coordinating committee is still discussing how to implement the new fine process. With Spring here, we expect more official reports of off leash dogs. Jay provided a sample of a sign that he had seen at another park that included a reference to the ordinance number regarding leashing and dog waste cleanup sign. Maybe we could get new signs including the ordinance number and fine language for leash violations.
2. Discussed on-street parking. Informed the committee that Lorna Lee would help draft a new parking ordinance to address on-street parking issues. Jay provided a map of where all the village fire hydrants are and we talked about ways to make sure they are clear from cars and debris like the bad ice and snow like we had this past winter. **The hydrant at the end of Veale is not real.*
3. All bridge work appears to be done and looks great.
4. Vaughn indicated that he would stay one the ballot **(later told Jenn that he changed his mind and instead preferred to be on Environment)*
5. Did not schedule next meeting. We will discuss over text and inform the secretary
